

# SUPPORT & SERVICES TRAINING

You have just acquired a new piece of equipment from BIOLAFITTE & MORITZ or you have to teach new teams of operators on existing systems ? We provide you with all necessary support to train your staff in order to use and to maintain in optimum way this equipment.

## CUSTOMIZED TRAINING MODULES

We could propose and provide you with different training support, responding to your needs.

- New equipment training course in order to transfer to your teams the expertise on the production tools.
- Highly performer training course concerning the use of our supervisory control systems as WINPROGRESS™ or RHAPSODY™.
- Process training course related to specifically phase by phase operations.
- Maintenance training course in order to implement real surveyor programs concerning the periodically checked of the actuators.
- cGMP and Validation training course for all staff involved in production and validation processes.

## ADD VALUE TO YOUR TRAINING

The training course is finalized by providing a complete folder that includes:

Participation File

Training Certificate

Training Report

This folder will be necessary to meet with the ISO 9001 (Item 4.18 – Training) rules and requirements and with « Current Good Manufacturing Practices » (21CFR211.25, Personnel Qualification).

....Training Agreement .....
