Innovative Solutions and Support

PIERRE GUERIN – MORITZ provides you with the knowledge gained from more than 30 years in the design and manufacturing of agitation systems, melting & storage vessels and production platforms for the pharmaceutical and cosmetic industry. An expert for pastry products, PIERRE GUERIN brings you innovative and adapted solutions, incorporating excellence in quality, services and reliability.

At the heart of your process:

PIERRE GUERIN offers a full line of process equipment :

- Vessels for the storage of raw materials
- Process vessels for shampoos and lotions
- Cream mixers
- Melting vessels, ancillary vessels for aqueous and fat phases
- Cleaning In Place Units
- Control system integration
- Turn-key process units including in GMP environment

Our team is dedicated to your complete satisfaction:

At PIERRE GUERIN we take a full integrated service approach to ensure we meet your specifications from the initial quote through equipment installation and ongoing support. Our turn-key solutions include:

- Process and equipment design in accordance with the highest standards (GAMP, ASME EHEDG, BPE, CFR, FDA, ATEX)
- Vertically integrated manufacturing of vessels and agitation systems, assembly, automation
- Detailed quality plan and project management, inspections and testing to support qualification where applicable
- IQ/OQ assistance
- Complete After-market Sales and Services

Process Expertise

PIERRE GUERIN knowledge related to the cosmetic applications, in particular for creams and pastry products, extends from the raw materials storage to the filling machines. That compliments the expertise developed in the field of the pharmaceutical and biological sterile forms.

PIERRE GUERIN has references for a numerous range of applications such as :

- Creams
- Ointments
- Lotions
- Mascaras
- Shampoos
- Tooth paste

PIERRE GUERIN, a worldwide presence

Over several decades PIERRE GUERIN has supplied equipment to many of the worlds leading companies, Institutes & Universities through its extended Sales & Services network.

In Europe, our manufacturing units which are located in France and Spain, also serve Africa, Middle-East and Far-East.
